

Bogdan A. Matei

Senior Frontend Developer

mb.bogdanmatei@gmail.com | +31 629817816 | [linkedin.com/in/mateibogdan](https://www.linkedin.com/in/mateibogdan) | Rotterdam, NL

Senior Frontend Developer with 5+ years of experience delivering scalable, high-performance web and mobile applications for large user bases. Specialising in React, React Native, and TypeScript, with proven ownership of release cycles, and cross-functional feature delivery. Known for bridging product and engineering, driving initiatives from discovery to production while raising code quality and frontend standards across the organisation.

TECHNICAL SKILLS

Core	React, React Native, TypeScript, JavaScript (ES2020+), HTML5, CSS
Styling	Tailwind CSS, Styled Components, Responsive Design, Accessibility (WCAG)
Tooling	Git / GitHub, Jest, Storybook, Sentry, Jira, CI/CD pipelines
Practices	Agile / SCRUM, Code Review, Release Management, REST API Integration
Familiar	Vue, NativeScript, NodeJS, Ruby on Rails

EXPERIENCE

Senior Frontend Developer - Chiliz Jan 2025 – Mar 2026

- Release Management - Own and coordinate frontend release cycles, including version tagging, QA handoffs, and cross-team communication for predictable, zero-downtime deployments.
- CI/CD Stewardship - Maintain and improve CI/CD pipelines, enforcing automated quality gates and optimising build performance to reduce time-to-production.
- Code Review Leadership - Lead reviews of large, complex merge requests with architecture-aware feedback, upholding codebase integrity and driving team growth.
- Incident Response - Act as first responder to production-critical incidents, triaging and resolving high-severity bugs under tight time constraints with minimal user impact.
- Observability - Own Sentry error monitoring across the frontend, proactively triaging and resolving recurring issues to maintain application health and stability.
- Feature Championship - Serve as Feature Champion for key product initiatives, leading scoping, cross-functional alignment, and end-to-end delivery from discovery to production.
- Architecture & Standards - Champion frontend best practices in performance, scalability, and accessibility; contribute to architectural decisions and internal engineering conventions.

Medior Frontend Developer - Chiliz Mar 2022 – Jan 2025

- Designed and developed production-grade web and mobile applications using React and React Native, focused on performance and scalability.
- Built reusable, type-safe component libraries in TypeScript following front-end best practices and internal design conventions.
- Translated Figma designs into pixel-perfect, responsive, and accessible interfaces using Styled Components and Tailwind CSS.
- Integrated REST APIs, handled async data flows, and delivered reliable user-facing features in close collaboration with backend teams.
- Maintained unit and component test coverage using Jest; contributed to backoffice enhancements and a major tech stack migration.

Junior Software Developer - WEvolve Mar 2021 – Mar 2022

- Built React and Vue-based applications; involved in full product lifecycle including design, development, and delivery of a fitness platform.

EDUCATION & TRAINING

Full Stack Development Bootcamp - Le Wagon Tokyo

BSc Physical Education and Sports - University of Transylvania Romania

LANGUAGES - English, Romanian (Native)
